

Erasmus Trip Bulgaria

With my friends in Euro Class, I went to Bulgaria for one week from November 19th to November 25th. We went there by going to Nantes airport in a rented small bus.

Then we took a first plane to go to Germany with 5 stopover time. After that, we took another plane to go to Sofia and finally, we were transported to the school where we met our family. When we arrived there, it was snowing and it was dark. My family was very happy and enjoyed and this gave me a good impression of Bulgaria. Next day, we visited the school and made a presentation with other students from different countries which participate to the program Erasmus + like Bulgaria, Estonia, Croatia and Germany. Days after we visited the capital of Bulgaria which is Sofia and also a lot of interesting things like big cave and historical monuments. We also bought a lot of memories and got a very good time.

It was a very good experience because without Euro Class, I would never have been to Bulgaria at all my life and I'm ready for another trip !
