

# Erasmus project: *Encouraging Europe through culture and commerce*

About three months ago, we did a travel to Bulgaria as part of the Erasmus project. It was an unbelievable and very enriching stay. I have got many memories but the most striking ones are every little moments when I was with my host family. I remember when we sang many French and English songs during maybe two hours with the whole family. We were all together, with lots of energy, big smiles... One of the other good times is also the meal at Banitsa restaurant because it was very interesting to have been able to exchange in English with people of our age; or again when we did presentations to many people, it was a huge privilege and pleasure. We did many things, we met full of great people, we made part of *terpin* bowling. We visited Saeva Dupka, Troyan, Troyan Monastery, the capital... We did many activities like the Ice breaking activity with all students etc... Regarding my personal impressions, I can just say this travel had made me feel really good. I know the chance I have had to go there. It was just magic, unbelievable... Every moment was a pure happiness. I shall keep an unforgettable memory.
